Karnes EC Awards 31 Scholarships

KARNES ELECTRIC COOPERATIVE is pleased to announce the recipients of its 2026 scholarships, awarded to graduating high school seniors from the co-op's service area. Each recipient will receive a \$3,500 scholarship to support their academic and career aspirations.

To qualify, students must be the child or dependent of an active Karnes EC member receiving electric service from the co-op and demonstrate a commitment to furthering their education.

This year, 31 outstanding students were selected from a pool of highly qualified applicants. Twenty-seven scholarships were awarded to students attending four-year universities. Three

were awarded to students—Roger Barraza, Kylie Dziuk and Colton Parrish—attending a two-year or vocational school.

In addition, KEC awarded the first lineworker scholarship this year to Chance Dusek. This scholarship will be distributed after the completion of an accredited lineman's college.

Karnes EC congratulates the recipients on their accomplishments and wishes them success in their educational journeys.

To the entire graduating class of 2026: Congratulations and best wishes for a bright future! ■
